

WT-5029 Space marking for freezer areas

PRODUCT AND APPLICATION DESCRIPTION

Durable, long-lasting, self-adhesive floor marking tape. The tape is particularly suitable for apolar, damp and cold surfaces up to the application in deep-freeze areas. WT-5029 is extra thin, tear resistant, quick to apply, wear resistant and easy to clean, making it particularly suitable for hygiene, food and cleanroom areas.

- ! Ideal for floor marking in the freezer area
- ! Bonding during cooling operation at up to -20 °C
- ! For smooth floors indoor
- ! Suitable for pedestrians and lift trucks

TECHNICAL DATA

Material:	Plastic foil
Thickness: (without liner)	0,2 mm
Liner:	Silicone paper
Surface:	Glossy
Adhesive:	Acrylic
Adhesive property:	Permanent
Temperature range:	-40 °C to +90 °C
Processing temperature:	min. -20 °C
Available colors:	Single color, multicolor, custom printed

FURTHER INFORMATION

It is possible to drive over the belt with floor conveyors. Turning and twisting on the belt with floor conveyors or similar heavy vehicles must be avoided and may destroy the belt.

To achieve the optimal adhesive strength, the substrate must be free of release agents such as greases, oils, surfactants, dirt and dust. The storage should be dry and UV-protected between 10°C and 25°C.

Note

The product information listed above has been compiled to the best of our knowledge and is based on current data. The properties mentioned are typical but therefore do not constitute a specification. The information provided does not relieve the customer of his obligation to test for suitability for the intended applications and processes. All specifications are subject to change without notice. Colour variations are possible.
