

## WT-5363 Fineline paper masking tape

### PRODUCT AND APPLICATION DESCRIPTION

WT-5363 is made of original Japanese rice paper and evenly coated acrylic adhesive. It is used in masking jobs that require exact color lines, for fixing masking paper and masking foils or as masking tape for the automotive industry. WT-5363 is ideal for the use with water-based paints and varnishes (acrylic paints and glazes).

- ! Exact and fine color edges on smooth and slightly rough surfaces
- ! Heat and UV resistant
- ! No shrinkage, easily removable without residue

### TECHNICAL DATA

Carrier material:	Japanese washi paper
Thickness: (without liner)	0.085 mm $\pm$ 10%
Adhesive:	Acrylic
Adhesive strength:	0.7 N/10 mm
Tensile strength:	34.7 N/15 mm
Temperature range:	up to +100 °C (20 min)
Application temperature:	$\geq$ 12 °C
Available colors:	Orange

### FURTHER INFORMATION

To achieve the optimal adhesive strength, the substrate must be free from separating agents such as greases, oils, surfactants, dirt and dust. The storage has to be dry and UV-protected between +18 °C and +21 °C.

#### Note

The product information listed above has been compiled to the best of our knowledge and is based on current data. The properties mentioned are typical but therefore do not constitute a specification. The information provided does not relieve the customer of his obligation to test for suitability for the intended applications and processes. All specifications are subject to change without notice. Colour variations are possible.
