

WT-5561 Adhesive cloth patches

PRODUCT AND APPLICATION DESCRIPTION

WT-5561 fabric adhesive dots offer very good instant adhesion and tack, especially on rough surfaces. The marking dots have very good hand tearability and are very supple. The dots are ideal for labelling shelves, objects and packaging, for closing and sealing sampling holes or for attaching documents and routing slips to KLT boxes, wire mesh boxes or goods. Coloured adhesive dots or squares can be used to add visual markers.

- | Can be used for indoor and outdoor areas
- | Glossy, tear-resistant, abrasion-resistant, inscribable

TECHNICAL DATA

Carrier material:	Rayon fabric, PE coated, glossy
Thickness: (without liner)	0.3 mm
Adhesive:	Natural rubber
Tensile strength:	16 kg/25 mm
Temperature range:	Up to +40 °C
Application temperature:	5°C to 35°C
Available colours:	Yellow, black, white, red, orange, light green, green, light blue, blue, brown, silver-grey

FURTHER INFORMATION

To achieve the optimal adhesive strength, the substrate must be free from separating agents such as greases, oils, surfactants, dirt and dust. Immediately after unrolling, apply the tape to the surface and press it down firmly. The storage has to be dry and UV-protected between +5 °C and +25 °C.

Note

The product information listed above has been compiled to the best of our knowledge and is based on current data. The properties mentioned are typical but therefore do not constitute a specification. The information provided does not relieve the customer of his obligation to test for suitability for the intended applications and processes. All specifications are subject to change without notice. Colour variations are possible.
