

## WT-6332 Glass fabric tape

### PRODUCT AND APPLICATION DESCRIPTION

WT-6332 is an adhesive tape made of glass fiber with silicone adhesive, heat resistant up to 260°C and especially suitable for thermal painting and powder coating.

- | Can be used for indoor areas
- | Resistant even during high pressure cleaning
- | Abrasion resistant and resistant to solvents and flame retardants

### TECHNICAL DATA

Carrier material:	Fiberglass
Thickness: (without liner)	0.120 mm
Adhesive:	Silicone adhesive
Adhesive strength to steel:	8.50 N/25 mm
Tensile strength:	525 N/25 mm
Temperature range:	-51°C to +260°C
Application temperature:	≥12 °C
Available colors:	White

### FURTHER INFORMATION

To achieve the optimal adhesive strength, the substrate must be free from separating agents such as greases, oils, surfactants, dirt and dust. The storage has to be dry and UV-protected between +10 °C and +27 °C.

#### Note

The product information listed above has been compiled to the best of our knowledge and is based on current data. The properties mentioned are typical but therefore do not constitute a specification. The information provided does not relieve the customer of his obligation to test for suitability for the intended applications and processes. All specifications are subject to change without notice. Colour variations are possible.
