Competence for 20 years

1A Tapes GmbH – that is pure commitment to industrial safety. For more than 20 years, we have been manufacturing one of the most comprehensive ranges of industrial identification and markings in Korbußen, Thuringia. Today, our many years of know-how make us one of the leading suppliers in the industry and a top supplier to a wide network of specialist dealers in Germany and throughout the EU.

On a production area of over 3000 m², we realise the most diverse customer wishes using the most modern technology. High quality standards, individual customer advice and short delivery times are part of our daily business and are the core values of our success story.

We are also happy to receive suggestions and requests and look forward to a mutual trusting cooperation.

Andreas Weiske

DIN EN ISO 9001:2015 Certification

Our quality management, certified according to DIN EN ISO 9001:2015, guarantees a constant high quality of our products, services and process stability.

The certification not only fulfills the high-quality requirements of our customers. It is also an expression of our efforts to provide our services and the desire for constant further development and improvement in an efficient, targeted way.

**DQS certified according to
ISO 9001 : 2015
Reg. No. 310651 QM15**

OUR SERVICES

PLOTTING

The latest generation of cutters enables precise processing of a wide range of materials. We can guarantee a flexible production run from the very first piece.

CUTTING

With different knives and cutting techniques, materials can be cut into individual roll widths with millimetre precision.

PUNCHING

Customised adhesive parts simplify work processes enormously. Increase the efficiency of your production with our customised adhesive stampings.

PLANNING AND DEVELOPING

Do you need something completely new? Our product development team is happy to take on new challenges. We will work with you to develop the right product!

DATA CREATION

Our trained graphics team creates the desired look from your data. Whether individual signs or labels, we deliver the perfect solution.

LARGE FORMAT PRINTING

We realise your individual design with the most modern printing machines and particularly robust UV printing.

SYMBOL KEY

 outdoor use	 pedestrian suitable	 slip resistance	 individual text
 indoor use	 lift truck suitable	 slip class R9	 barcode
 5S suitable	 forklift suitable	 slip class R10	 writeable
 for smooth surfaces	 suitable for wet areas	 slip class R11	 roll material
 for structured surfaces	 magnetic	 slip class R12	 bundled
 for very structured surfaces	 suitable for freezing	 slip class R13	 sheet material

SUSTAINABLE WITH 1A TAPES

SHORT TRANSPORT ROUTES

Our material suppliers are located in Europe as far as possible. This allows us to significantly reduce transport distances and the associated CO₂ emissions.

SAVE ENERGY AND RESOURCES

In production, we always pay attention to the conservation of resources and constantly optimise our production processes to keep the use of energy as low as possible.

ZERO WASTE POLICY

During production, we pay attention to maximum material utilisation. Our outer packaging is made of 100% recyclable material and our cardboard boxes are made of a high proportion of recycled waste paper.

OPTIMISED DISPATCH

When transporting our products, we strive for full package utilisation. For this purpose, we use precisely fitting cardboard boxes. This saves shipping volume and CO₂ when transporting our products.

DURABILITY

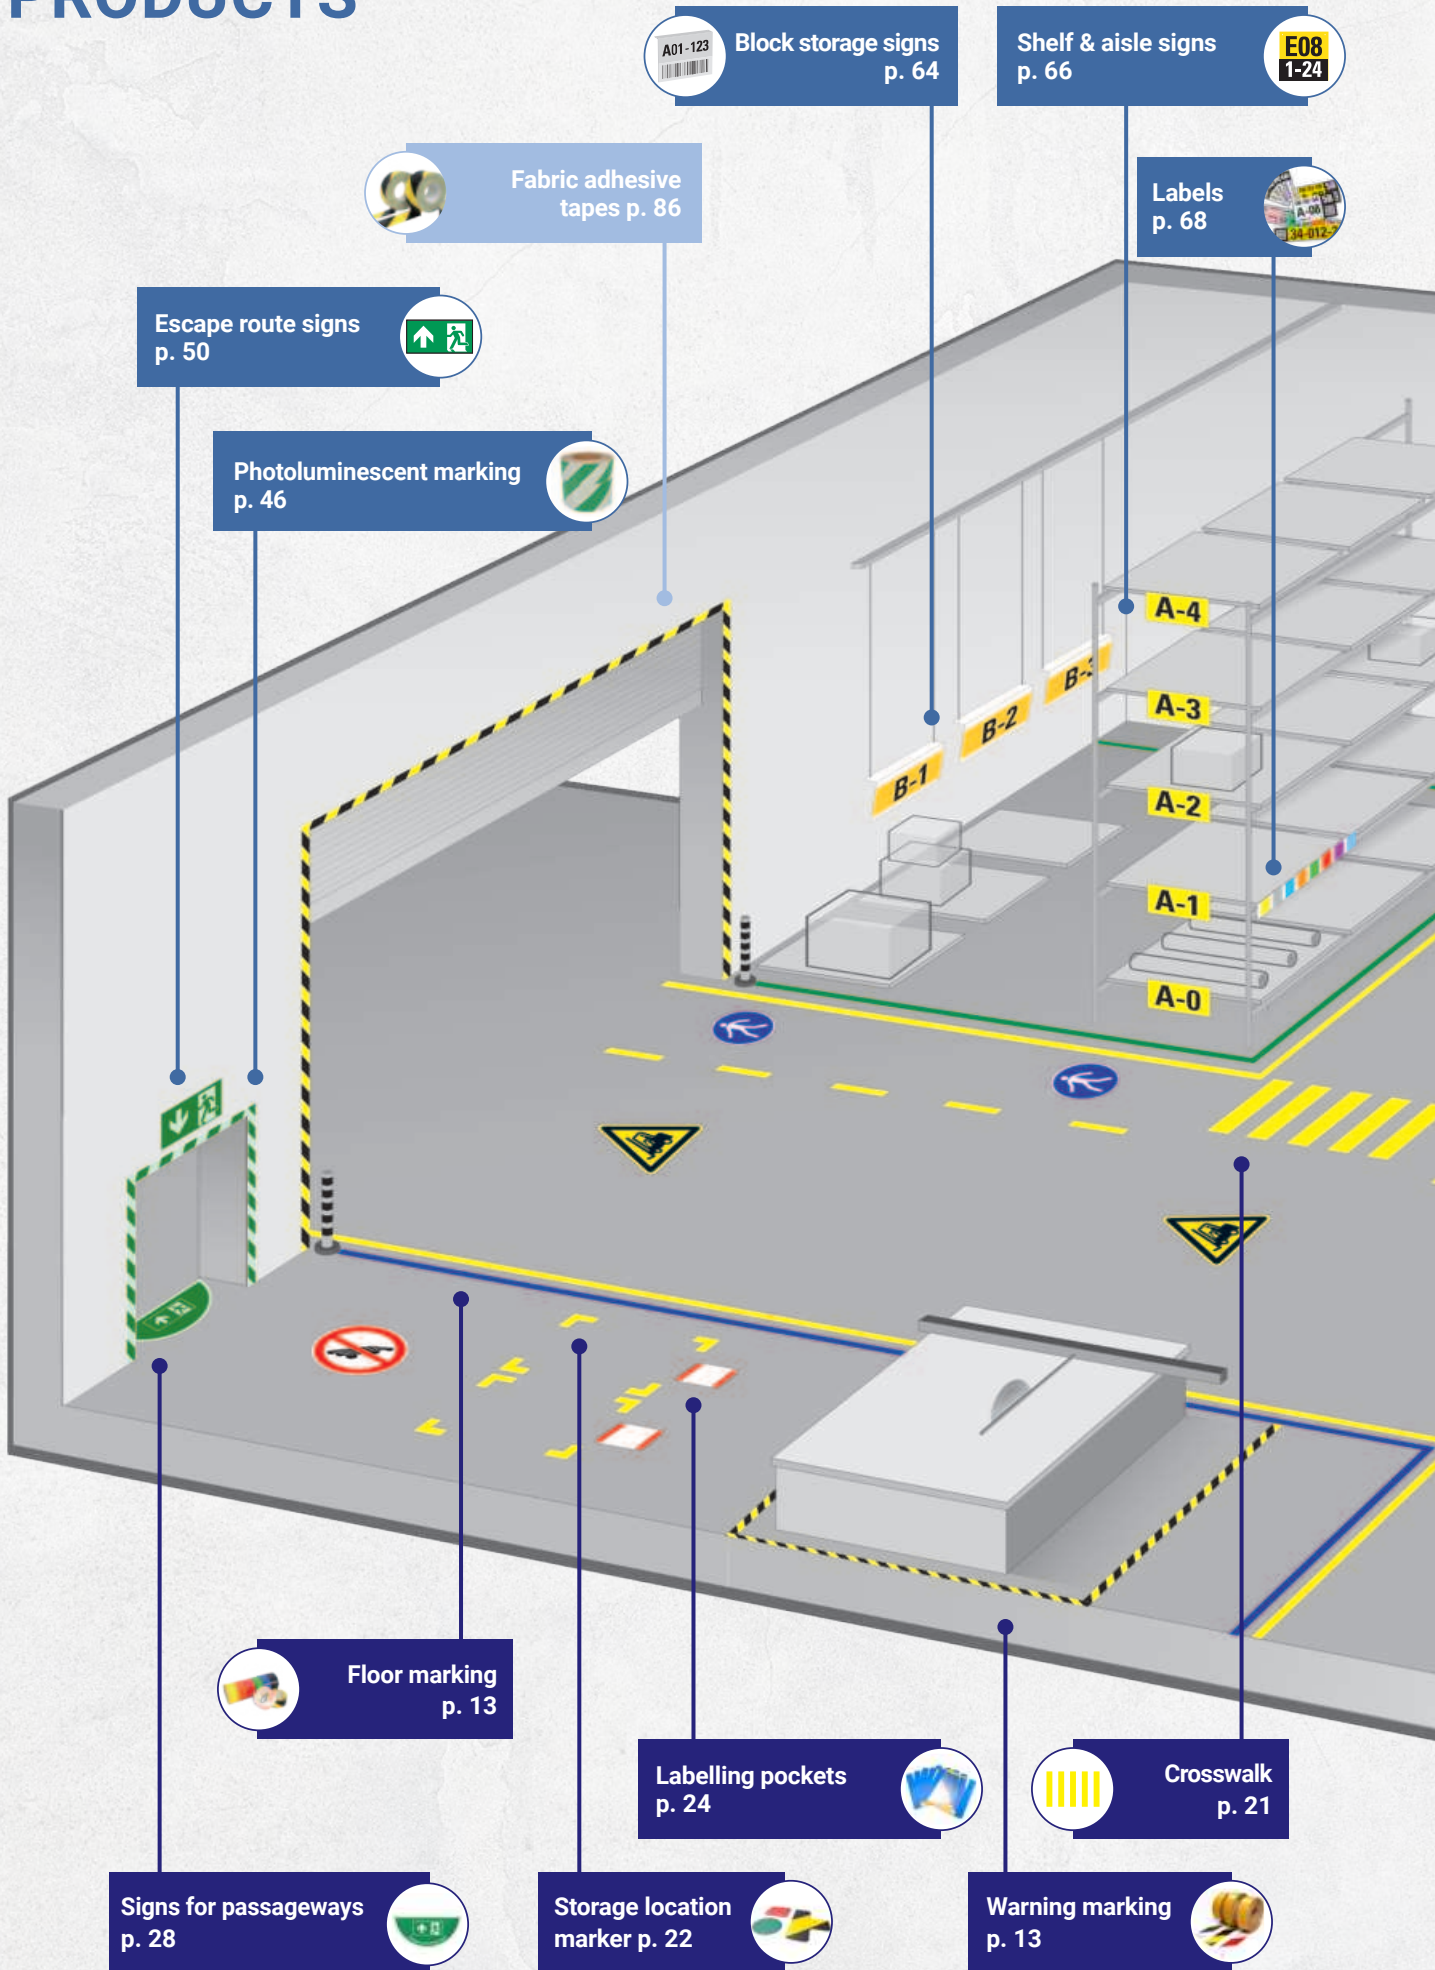

We pay attention to a very high quality standard for our products. In this way, we can guarantee a long shelf life and reduce material consumption for the sake of the environment.

RENEWABLE ENERGY

We use the power of the sun to generate a large part of our electricity supply sustainably via our in-house solar energy system.

Note on the selection and bonding of floor markings and floor signs

All self-adhesive markers, signs, etc. offered in the catalogue are items that are subject to wear depending on the stressing. Before making a selection, consider the following points to find the product that is right for you. You should be aware that there is no 100% forklift resistant self-adhesive floor marking.

Where to mark?

indoor or outdoor

What are the floor conditions?

e.g. plain concrete screed, asphalt or concrete pavement

How can damage, to the marking due to heavy loading, be restricted?

e.g. with segmented floor marking, by marking without restricting their function or by applying to places that are not heavily loaded

What stress is the material subjected to?

forklift, pallet truck, pedestrian traffic; low or heavy traffic

Outdoor installation

primer is required for asphalt, concrete and other absorbent (large-pored) substrates

Is slip resistance required?

slip resistance or slip class R9 - R13

Installation instructions

dry, grease-free, dust-free and dirt-free subfloor with an installation temperature of >12°C

If the above-mentioned aspects are taken into account, all the advantages of self-adhesive products, such as immediate accessibility, individual marking possibilities, quick removability and the high contribution to 5S, can be realised.

If you have any questions, our sales team is always available to advise you.

Ground marking - What do the different colours mean?

The different colours make surfaces and functions clearly visible. In many industrial companies, a largely consistent application has become established, which can serve as a good guide for your own use. We offer floor marking tapes in the following colours and meanings:

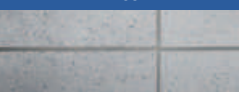

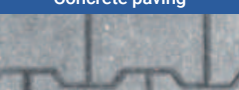

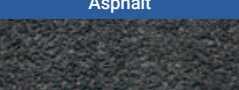

Colour	Example of application
white	Location for machines, devices and systems
yellow	aisles, paths and lanes, production cells
orange	areas for material/production control or intermediate storage
red	safety/first aid, waste and disposal areas, restricted storage area
green	materials and manufacturing, finished goods
blue	materials and manufacturing, raw materials
black	materials and manufacturing, work in progress
black/yellow	areas with potential health hazards where special care is required
black/white	areas in which the stay is not permitted for operational reasons

Which floor marking tape for which application

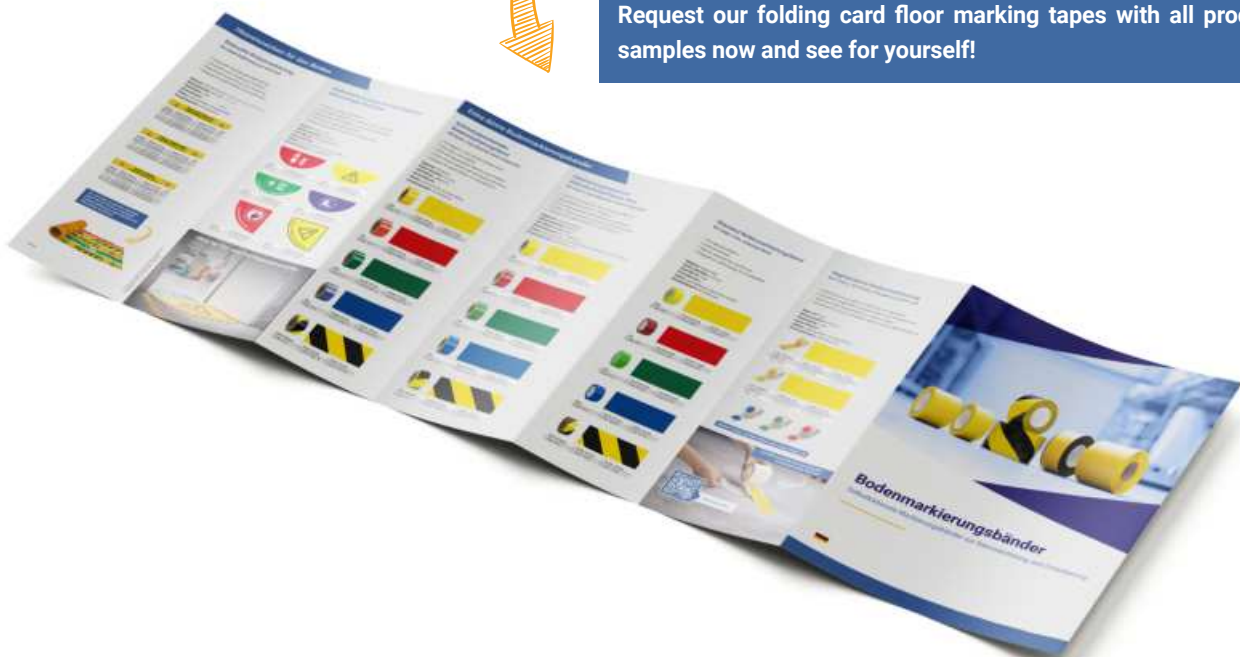

The following table quickly shows you which marking tape is most suitable for your ground.

The tapes given are recommendations, a test bond and sample is always advisable.

Floor	Area	Degree of loading and surface quality of the ground marking tape				
		Pedestrian traffic		Lift truck traffic		Forklifts
		Standard	with slip resistance	Standard	with slip resistance	Standard

Drive-over floor marking tape || WT-6000

Holds to what it promises

- Extremely wear-resistant
- High resistance with permanent load
- Dirt-resistant surface
- Only suitable for smooth floors indoors

Material: metal

Material thickness: 0.6 mm

Surface: glossy

Adhesive: permanent acrylic adhesive

Application area: indoor

Colour	75 mm x 1.5 m	75 mm x 6 m
yellow	 5611.04.075	5611.04.075-6

Resistant floor marking tape || WT-500

Tape with flattened edges

- Flattened edges prevent damage to the border
- Wear-resistant and high resistance with permanent load
- Dirt-resistant surface
- Only suitable for smooth floors indoors

Material: PVC

Material thickness: 1.1 mm

Surface: matt

Adhesive: permanent acrylic adhesive

Application area: indoor

Laying instructions: when laying lengths of 10m or more, we recommend installing expansion joints of 5 mm

Floor marking tape || WT-5125

The universal tape

- Hard-wearing and durable tape
- Available as segmented marking at p. 18 and storage location marking at p. 22
- Wide range of colours and individually printable
- Suitable for smooth indoor floors

Material: PVC

Material thickness: 0.6 mm

Surface: matt

Adhesive: permanent acrylic adhesive

Application area: indoor

Can be individually printed

Durable floor marking tape || WT-5845

The anti-slip tape for difficult ground

- | Retroreflective and anti-slip R11 surface
- | Extremely wear-resistant and strongly adhesive
- | Can also be used outdoors
- | Suitable for rough and uneven surfaces

Material: PU

Material thickness: 1.6 mm

Surface: reflective

Slip class: R11

Adhesive: extra permanent synthetic rubber

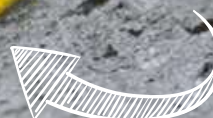

Application area: for indoors and outdoors

Laying instructions: outside, pre-treat the substrate with Primer No. 5 – Page 76

Suitable for uneven floors with additional anti-slip effect

Tactile floor marking tape || WT-5848

The tape for visually impaired people

- Optical and tactile differentiation from conventional tapes
- Allows visually impaired people to find their way around
- Extremely wear-resistant and strongly adhesive
- Grip and non-slip surface, also when wet
- Suitable for rough and uneven surfaces

Material: PU

Material thickness: 2.2 mm

Surface: matt reflective

Slip class: R11

Adhesive: extra permanent synthetic rubber

Application area: for indoors and outdoors

Laying instructions: outside, pre-treat the substrate with Primer No. 5 – Page 76

Conformable floor marking tape || WT-5645

The tape that gets things into shape

- Adapts to the profile of the substrate
- Slip resistance R12
- Especially for uneven substrates e.g. anti-slip coatings, concrete paving, asphalt floors and checker plates

Material: coated soft aluminium

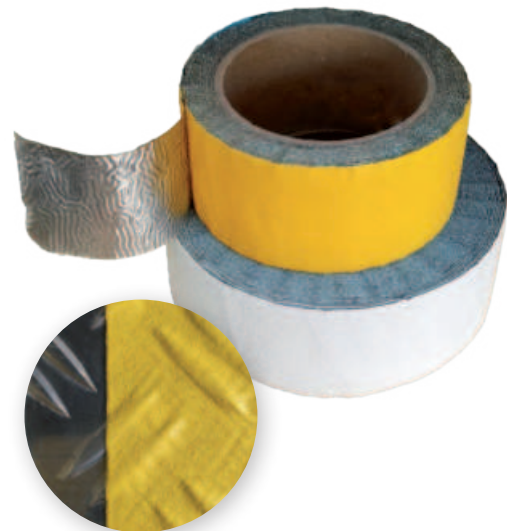

Material thickness: 0.6 mm

Surface: slightly glossy

Slip class: R12

Adhesive: extra permanent synthetic rubber

Application area: for indoors and outdoors

Colour	50 mm x 12.5 m	75 mm x 12.5 m	100 mm x 12.5 m
yellow	5645.04.050-12	5645.04.075-12	5645.04.100-12
white	5645.08.050-12	5645.08.075-12	5645.08.100-12

Laying instructions: use pressure rollers for profiled surfaces. Outside, pre-treat the substrate with Primer No. 5.

Ideally suited for epoxy resin floors with anti-slip coating

Dirt-repellent ground marking tape || WT-5229

The extra thin tape for high demands

- | Suitable for hygiene, food and clean room areas
- | Extra thin and tear-resistant
- | Also available as segmented marking at p.18 and storage location marking at p.22
- | Suitable for smooth floors indoors

Material: PET

Material thickness: 0.2 mm

Surface: gloss

Adhesive: permanent or removable acrylic adhesive

Application area: indoor

Suitable storage location marking can be found on page 22

Segmentierte Bodenmarkierung

For easy repair in highly stressed areas

Reduces the contact surface in high-traffic areas

Easy to lay from a roll

Damage only to individual segments

Quick and easy replacement

Floor marking strips and dots

The alternative to continuous marking tape

- Reduced contact surface in high-traffic areas
- Simple bonding as rolls due to mounting foil
- Fast replacement in case of damage
- Very good floor bond
- Suitable for smooth floors indoors

Distance of the dots

Distance of the strips

* Tolerance $\pm 2\text{mm}$

For easy installation, the strips are already produced on a roll with the appropriate spacing. This means that the segmented floor marking can be laid like a conventional marking tape.

Universal segmented floor marking || WT-5126 / WT-5124

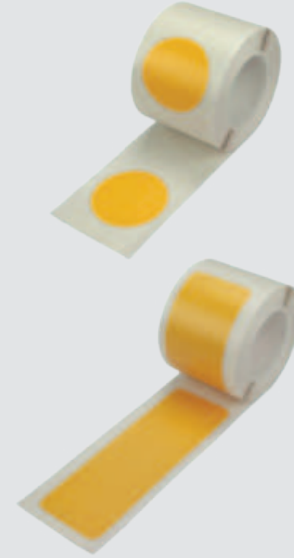

- The ideal complement to the tape WT-5125
- Suitable for smooth floors indoors

Material: PVC (like WT-5125)
Material thickness: 0.6 mm
Surface: matt
Adhesive: permanent acrylic adhesive
Application area: indoor

Durable pictograms || WT-5811

- Retro reflective and anti-slip R11 surface
- Extremely wear-resistant
- and strongly adhesive

Material: PU (like tape WT-5845)

Material thickness: 1.6 mm

Surface: retroreflective

Slip class: R11

Adhesive: permanent synthetic rubber

Application area: for indoors and outdoors

Laying instructions: outside, pre-treat the substrate with Primer No. 5

Dimension of storage location marker 50 mm and 75 mm

Side width 50 mm

Side width 75 mm

Floor marking & labels

For structured and clean marking

Ideal for interchangeable labelling

Labelling pockets

For exchangeable or fixed labelling

- | Open for interchangeable labelling
- | Closed to protect against moisture
- | Easy and fast bonding
- | Very good floor bond
- | Suitable for smooth floors indoors

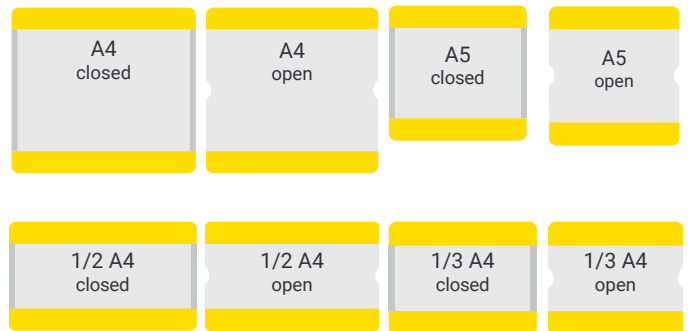

Material: PVC

Material thickness: 1.2 mm

Surface: slightly glossy

Adhesive: permanent acrylic adhesive

Application area: indoor

Safety signs for the ground

Ensure more safety in your company

Safety signs

- | Quick installation
- | Extremely wear-resistant
- | Good resistance
- | Suitable for smooth grounds indoors and outdoors

Material: Rigid PVC

Feature: extremely wear-resistant

Material thickness: 0.9 mm

Surface: semi-matt

Slip class: /

Adhesive: permanent acrylic adhesive

Application area: indoor

Material: PVC

Feature: with slip resistance

Material thickness: 1.0 mm

Surface: matt

Slip class: R10

Adhesive: permanent acrylic adhesive

Application area: indoor and outdoor

Find all ASR motifs as well as individual designs in the online shop:
www.1atapes.de

Primer No. 5

- | Primer No. 5 increases the adhesion of a tape on critical surfaces
- | ALWAYS required for outdoor use!

250 ml (0,75 m²)	1000 ml (3 m²)
3051.25.250	3051.25.1000

Edge sealing

- | For sealing of edges
- | Prevents penetration of moisture

Contents: 140 ml for approx. 10-15 m

Edge sealing	Item no.
140 ml	6090.20.140-1A

Laying instructions: for outdoor areas, prime the substrate with Primer No. 5 and seal the edges with edge seal.

Safety signs for the ground

More safety with our ground signs

Safety signs for passages and important areas

- | Extra high luminance **200/25 mcd/m²** (10min/60min) **according to DIN 67510 (Class C)**
- | Slip resistance R9
- | The right variant for every requirement, customisable upon request
- | Quick installation, good durability and extremely wear-resistant
- | Suitable for smooth floors indoors

Material: Rigid PVC
Material thickness: 0.9 mm
Slip class: /
Adhesive: permanent acrylic adhesive
Application area: indoor
Feature: extremely wear-resistant

Material: Foil
Material thickness: 0.3 mm
Slip class: R9
Adhesive: permanent acrylic adhesive
Application area: indoor

Material: Rigid PVC luminescent
Material thickness: 1.4 mm
Slip class: /
Adhesive: permanent acrylic adhesive
Application area: indoor
Feature: extremely wear-resistant

Material: Foil luminescent
Material thickness: 0.7 mm
Slip class: R9
Adhesive: permanent acrylic adhesive
Application area: indoor

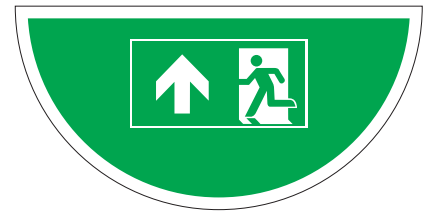

**You have a difficult ground or want a different material texture?
Other versions on request - we happily advise you in choosing the right material!**

Ground signs – Outdoor

For self-adhesive marking

Ground signs – Outdoor

Signs that are strongly connected to the ground

- | Easy and fast bonding
- | Wear-resistant and high resistance
- | Very good floor bond
- | Suitable for concrete paving and asphalt

Material: PVC

Material thickness: 1.3 mm

Surface: matt structured

Slip resistance: anti-slip surface

Adhesive: permanent butyl adhesive

Application area: outside

Primer No. 5

- | Primer No. 5 increases the adhesive strength of a tape on critical surfaces
- | ALWAYS required for outdoor use!

250 ml (0.75 m²)	1000 ml (3 m²)
3051.25.250	3051.25.1000

Pressure roller

- | Professional pressure roller for laying self-adhesive markings

Variant short (1)	Variant long (2)
8002.11.032	8002.00.921

Edge sealing

- | For sealing of edges
- | Prevents penetration of moisture

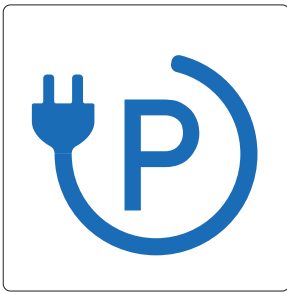

Content: 140 ml for approx. 10-15 m

Edge sealing	Item number
140 ml	6090.20.140-1A

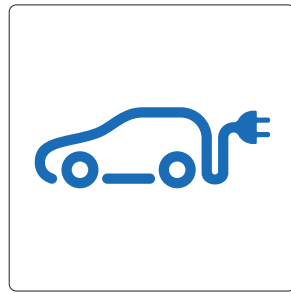

Laying instructions: for outdoor areas, prime the substrate with Primer No. 5 and seal the edges with edge seal.

Magnetic tracking tape || WT-9228

This tape will keep you on the right track

- Fast bonding of track nets
- Insensitive to dirt and unfavourable light conditions
- High flexibility and low costs for driving course changes
- Polarity and adhesion as required

Different curve elements:

Anti-slip solutions

- | Anti-slip tapes
- | Anti-slip strips
- | Stair nosing profiles

Anti-slip solutions

Prevent slipping and falling accidents safely!

i Floor coverings are subdivided into 5 groups, with coverings with group R9 meet the lowest requirements for anti-slip properties and those with group R13 meet the highest requirements for anti-slip properties. [ASR A1.5/1.2](#)

Group R11
increased static friction coefficient
non-slip up to 19° - 27° inclination
e.g. vehicle repair, beverage filling

Group R9
low friction coefficient
non-slip up to 3° - 10° inclination
e.g. stairs, entrance area

Group R10
normal coefficient of static friction
non-slip up to 10° - 19° inclination
e.g. sanitary rooms

Group R12
high coefficient of static friction
non-slip up to 27° - 35° inclination
e.g. cold storage rooms, wastewater treatment plants

Group R13
very high coefficient of static friction
non-slip up to inclination > 35°
e.g. flow-through tank

Anti-slip tape – medium || WT-5411

The self-adhesive tape for versatile use

- | Large variety of colours and individual widths possible
- | Slip resistance R13
- | For medium to high loads
- | Suitable for smooth grounds indoors and outdoors

Material: mineral granulation embedded in synthetic resin

Material thickness: 0.9 mm ± 0.1 mm

Surface: medium

Slip class: R13

Adhesive: permanent acrylic adhesive

Application area: indoor and **weather-protected** outdoor area

Anti-slip stair nosing profile || WT-5409

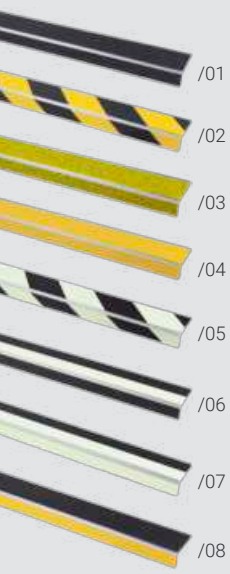

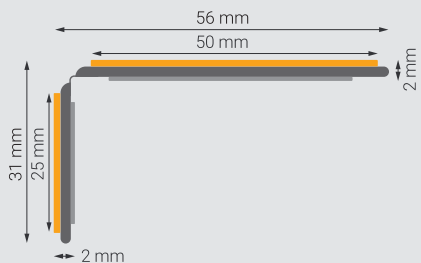

Thin Line

- Slip resistance R10 or R13
- Wear-resistant and slip-proof, even for high frequencies
- Firm hold by screwing the profiles
- For difficult, uneven, porous or dirty surfaces
- Suitable for indoor use on stairs, ramps, landings, ladders, etc.

Photoluminescent marking

Ensure more safety in your company

High luminescence

Photoluminescent 200/25 mcd/m² - Class C

ASR A3.4/7 at least prescribes: 80/12 mcd/m²

Photoluminescent marking || WT-6126

The ideal marker for glow in the dark

- | Self-adhesive guide mark for wall and floor
- | Extra high luminance **200/25 mcd/m² according to DIN 67510 (class C)**
- | Current-independent, maintenance-free and fail-safe
- | The right variant for every requirement

Material: PVC with anti-slip surface

Material thickness: 1.0 mm

Surface: matt

Slip class: R9

Adhesive: permanent acrylic adhesive

Application area: indoor

Minimum luminance

Class	According to 10 minutes	According to 60 minutes
A	23 mcd/m ²	3 mcd/m ²
B	50 mcd/m ²	7 mcd/m ²
C	140 mcd/m ²	20 mcd/m ²
D	260 mcd/m ²	35 mcd/m ²

mcd = Millicandela

You have a difficult ground or want a different material texture?

Other versions on request - we happily advise you in choosing the right material!

Marking tape

Material	Width x length	Item number

PVC	90 mm x 145 mm	6126.00.003

Escape route signs

Ensure more safety

i In accordance with **ASR A1.3 and 2.3**, escape routes must be equipped with long photoluminescent escape route signs if no emergency lighting is available.

Escape route signs

For flat mounting on walls

Photoluminescent 200/25 mcd/m² - Class C
ASR A3.4/7 stipulates at least: 80/12 mcd/m²

Escape route left (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR41.FN81.150
	200 x 400 mm	SR41.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR41.PEN90.150
	200 x 400 mm	SR41.PEN90.200

Escape route right (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR44.FN81.150
	200 x 400 mm	SR44.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR44.PEN90.150
	200 x 400 mm	SR44.PEN90.200

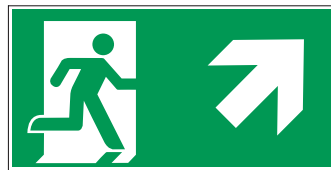

Escape route straight ahead, through the door, upwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR40.FN81.150
	200 x 400 mm	SR40.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR40.PEN90.150
	200 x 400 mm	SR40.PEN90.200

Escape route go left upwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR42.FN81.150
	200 x 400 mm	SR42.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR42.PEN90.150
	200 x 400 mm	SR42.PEN90.200

Escape route go right upwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR47.FN81.150
	200 x 400 mm	SR47.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR47.PEN90.150
	200 x 400 mm	SR47.PEN90.200

Escape route downwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR43.FN81.150
	200 x 400 mm	SR43.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR43.PEN90.150
	200 x 400 mm	SR43.PEN90.200

Escape route go left downwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR45.FN81.150
	200 x 400 mm	SR45.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR45.PEN90.150
	200 x 400 mm	SR45.PEN90.200

Escape route go right downwards (ASR A1.3)

Material	Width x length	Item number
Foil photolumin.	150 x 300 mm	SR46.FN81.150
	200 x 400 mm	SR46.FN81.200
Plastic 1mm, photolumin.	150 x 300 mm	SR46.PEN90.150
	200 x 400 mm	SR46.PEN90.200

Material: luminescent foil 0.7 mm

Surface: glossy

Assembly: self-adhesive

Application area: for smooth and gap-free substrates indoors

Material: luminescent plastic 1.7 mm

Surface: glossy

Assembly: with self-adhesive or screw-in accessories

Application area: for uneven surfaces

Flag signs

Assembly:
 self-adhesive
Application area: indoor
 e.g. on doors or machines

Material: Plastic 1.0 mm
Surface: slightly glossy
Assembly:
 with self-adhesive or screw-in accessories
Application area: indoor
 e.g. for indoor wall mounting

Material: aluminium composite 2.0 mm
Surface: glossy
Assembly:
 with self-adhesive or screw-in accessories
Application area: indoor and outdoor
 e.g. for outdoor wall mounting

Further safety symbols as well as sizes, materials and individual motifs can be found at www.1atapes.de

Individual combination signs

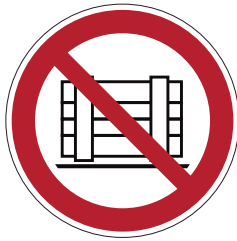

- | Combination signs with safety signs and text as required
- | Can be customised according to your requirements
- | Additional materials for other areas of application possible

Prohibited for industrial trucks (ASR A1.3)

Motif number | **SV01**

Deposit or storage of items strictly forbidden (ASR A1.3)

Motif number | **SV02**

Depositing pallets prohibited (tried in practice)

Motif number | **SV28**

Pedestrians prohibited (ASR A1.3)

Motif number | **SV03**

No admission for unauthorised person (ASR A1.3)

Motif number | **SV06**

No smoking (ASR A1.3)

Motif number | **SV04**

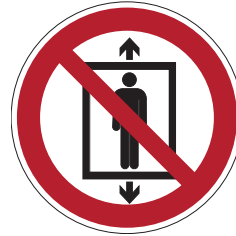

No open flame; fire open ignition source and no smoking (ASR A1.3)

Motif number | **SV05**

Extinguishing with water prohibited (ASR A1.3)

Motif number | **SV13**

Passenger transport prohibited (ASR A1.3)

Motif number | **SV25**

Do not use lift in case of fire (ASR A1.3)

Motif number | **SV32**

Eating and drinking prohibited (ASR A1.3)

Motif number | **SV23**

Not drinking water (ASR A1.3)

Motif number | **SV22**

Spraying with water prohibited (ASR A1.3)

Motif number | **SV21**

Entering the area prohibited (ASR A1.3)

Motif number | **SV14**

Use of gloves prohibited (ASR A1.3)

Motif number | **SV07**

Switched on mobile phones prohibited (ASR A1.3)

Motif number | **SV20**

Non-heavy load (ASR A1.3)

Motif number | **SV10**

Switching prohibited (ASR A1.3)

Motif number | **SV12**

Do not climb (tried in practice)

Motif number | **SV16**

Do not climb (ASR A1.3)

Motif number | **SV11**

No access for persons with pacemakers or implants. Defibrillators (ASR A1.3)

Motif number | **SV26**

Prohibited for persons with metal implants (ASR A1.3)

Motif number | **SV27**

Do not reach inside (ASR A1.3)

Motif number | **SV08**

Do not touch (ASR A1.3)

Motif number | **SV09**

General prohibition signs (ASR A1.3)

Motif number | **SV31**

Include the motif number with the item number for the appropriate material: **SV22.FAB99.100** (Example for "Not drinking water" - foil 100 mm)

Traffic signs

For internal identification

Traffic signs

- | Traffic signs, no parking signs and information signs for internal identification
- | Suitable for easy mounting on the wall or floor
- | Reflective foils with classes RA1 and RA2

Wall mounting

Material:
Aluminium composite 3.0 mm

Variante:
Standard, RA1/A, RA2/C

Assembly:
with self-adhesive or screw-in accessories

Application area:
indoors and outdoors

Ground mounting

Material:
Rigid PVC 0.9 mm

Surface:
slightly glossy

Assembly:
self-adhesive

Application area:
for indoor smooth and clean grounds

Material:
PVC 1.1 mm

Surface:
slightly glossy, anti-slip

Assembly:
strongly self-adhesive

Application area:
for indoor and outdoor smooth and clean grounds

Material:
PVC 1.2 mm

Surface:
slightly glossy, anti-slip

Assembly:
extra strong butyl adhesive

Application area:
for concrete paving and asphalt indoors and outdoors

Block storage, ceiling & flag signs

Flexible marking of storage locations

Block storage and ceiling signs

Hanging exchangeable or fixed labelling

- | For marking block bearings
- | Format and size according to customer requirements
- | Angular deflection allows better scanning of barcodes
- | Retroreflective for large distances on request
- | Font colour and background colour individually selectable

Material: rigid foam

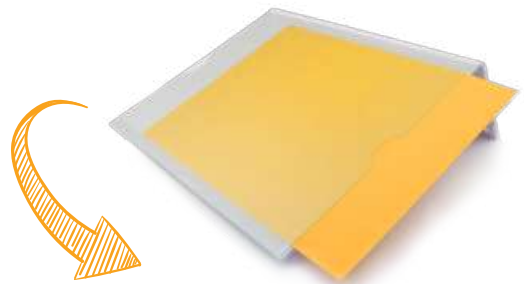

Material thickness: 3 mm

Scope of delivery: supplied pre-drilled

Mounting: suitable accessories from page 76

Maximum size: 1200 x 1200 mm

Application area: indoor

Ideal for changing labels!

Insertion pocket

Ceiling/block storage sign with insertion pocket

Flag signs

For flexible marking of aisles and shelves

- Information signs for individual warehouse labelling
- Optimal for frequently changing labelling
- Full-surface protection of documents due to PVC insertion pocket
- High durability due to high-quality materials
- Further dimensions on request

Material: rigid foam

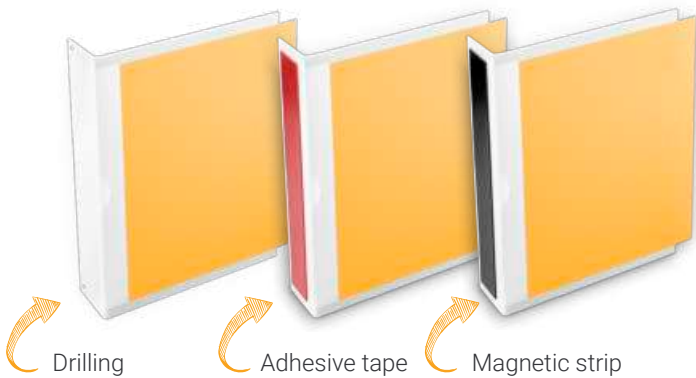

Material thickness: 3 mm

Scope of delivery: depending on item number with adhesive strip, magnetic strip or pre-drilled

Application area: indoor and outdoor

Fully custom-printable or with insertion pockets!

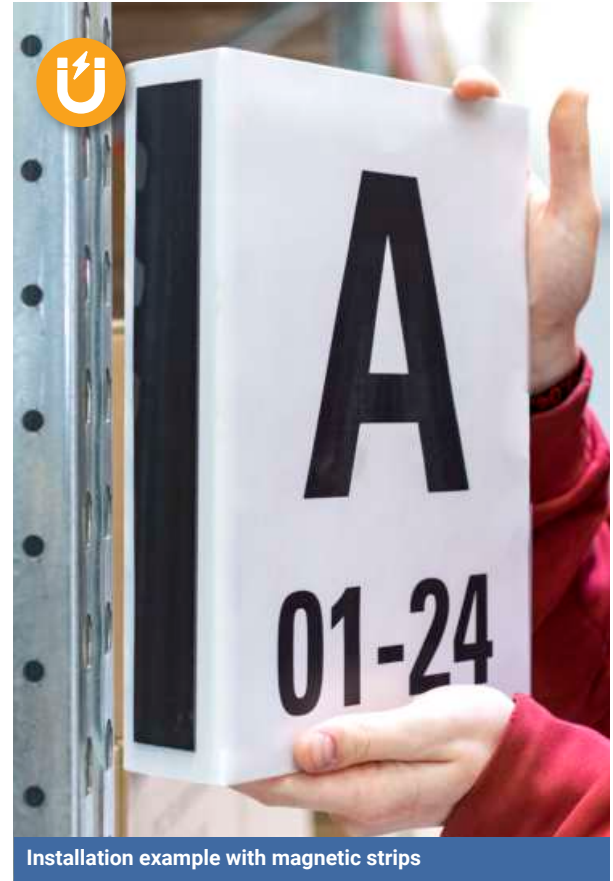

Select a suitable mounting variant:

Drilling

Adhesive tape

Magnetic strip

Shelf line & aisle signs

The basic order in the warehouse

Shelf line and aisle signs

For marking shelves and storage areas

- | For marking the basic order in the warehouse
- | Highly visible on the front sides of shelves
- | Use for loading ramps, aisles, high racks, block storage areas
- | Customised production e.g. colours, company logo or special formats
- | Scalable font size for optimum legibility
- | Retroreflective for long distances on request

Material: rigid foam

Material thickness: 3 mm

Scope of delivery: without drilling

Dimensions max: 1000 x 2000 mm

Application area: indoor

Fully individual design!

Standard sizes for individual labelling:

Height x width	Weight	Item number
400 x 400 mm	approx. 0.25 kg	LB99.SD00.400-400
600 x 600 mm	approx. 0.55 kg	LB99.SD00.600-600
800 x 800 mm	approx. 0.95 kg	LB99.SD00.800-800

All signs can be fully customised to your needs!

Steel spiral springs

- | For hanging up signs on shelves
- | Can be extended up to approx. 1.5 m

Material: steel

Material thickness: 2 mm

Length: 200 mm - 1.5 m

Load capacity: up to approx. 3.5 kg

Steel spiral springs	Item number
4 pcs/PU	8008.00.120

Magnetic tape

- | For mounting signs
- | Self-adhesive on one side

Material: magnetic tape

Material thickness: 1.5 mm

Adhesive: acrylate

Size: 25 mm x 10 m

Magnetic tape	Item number
1 roll	9201.2.05.025

Cube & Triangle

Optimum visibility at a long distance

- | Easily visible from a great distance
- | Printing on all sides
- | Customised production e.g. colours, company logo or special formats
- | Scalable font size for optimum legibility

Material: rigid foam

Material thickness: 3 mm

Scope of delivery: supplied with drilled hole

Mounting: matching accessories page 76

Application area: indoor

Fully individual design!

Ceiling cube (4-sided)

Sizes (HxW)	Weight	Item number
400 mm x 400 mm	appx. 1.5 kg	LB99.SDK00.400-400
600 mm x 600 mm	appx. 3.3 kg	LB99.SDK00.600-600

Ceiling triangle (3-sided)

Sizes (HxW)	Weight	Item number
400 mm x 400 mm	appx. 1.0 kg	LB99.SDD00.400-400
600 mm x 600 mm	appx. 2.2 kg	LB99.SDD00.600-600

! Note: Chains and hooks can be found from page 77

For a quick delivery we need the following information:

Design:
ceiling cube or ceiling triangle

Dimensions:
height x width, e.g. 400 x 400 mm, 600 x 600 mm

Colour:
all colour combinations possible
e.g. black on yellow, black on white

Text/Content:
as specified by excel list

Barcode-System:
e.g. Code 128, Code 39, QR code

Number of pieces

Labels for warehouse and shelf

The clear and high-quality marking of storage spaces for every requirement

Online catalogue

Further information about shelf and warehouse marking can be found in our brochure. Just contact us and we will be happy to send you a version.

Labels for warehouse and shelf

High-quality labelling for every requirement

- Wide range of design options
- Various materials and sizes
- Adaptable colour coding system
- Can be customised with your logo
- All barcode systems possible
- Single labels or sheets

We produce your labels individually according to your needs. With our software, it is possible to print changing contents, e.g. plain texts, barcodes, symbols etc. A large range of materials is available, which are individually selected to suit your conditions.

Plastic labels
Level profiled crossbars with sturdy plastic labels.
Ex. Multilevel label

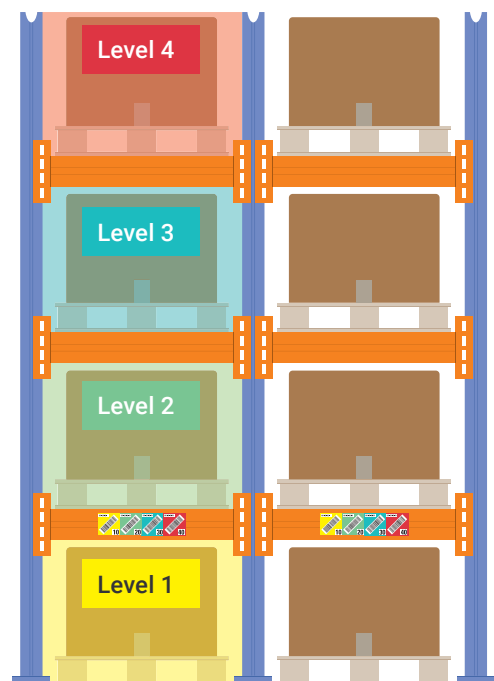

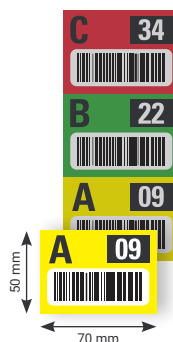

Magnetic label

Foil label

Properties of multilevel labels

- Identify rack storage locations across multiple levels
- Enable simplified management of high racks
- Various attachment options (self-adhesive, magnetic)
- The barcodes are printed at an angle to increase the first read rate
- Fixing at eye level: no need for long range scanner

Standard sizes for multilevel labels

Data transmission

You send the data and we take care of the rest

For a quick delivery we need the following information:

Material:

Polycarbonate (p. 71) magnet (p. 71), foil (p. 70), RA1, freezer foil

Dimension:

Height x width according to item number or individually on request

Colour:

all colour combinations possible! e.g. black/yellow, black/white, ...

Text/Content:

as specified by Excel list

Barcode-System:

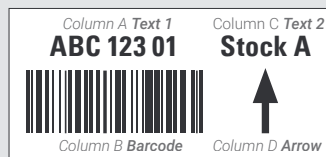

e.g. Code 128, Code 39, QR code

Ex. Excel table for single labels

	A	B	C	D

Magnetic labels

Flexible marking for changing storage areas

- Attachment to magnetic surfaces
- For variable shelf location labelling
- Different magnet variants (e.g. for deep-freeze areas)
- Quick and residue-free replacement
- Can be used flexibly

Material: magnetic foil
Material thickness: 0.85 mm
Surface: matt
Protective laminate: on request
Application area: indoor

We produce individual magnetic labels according to your requirements. Tell us the desired size, colour and imprint.

Anti-Stick Label Holder

Label quickly, efficiently and sustainably

Adhesive residue from old labels gives a disorganised impression and costs time and money. The special anti-stick foil creates a surface on which typical paper labels adhere, but can still be removed without leaving any residue.

The versatile Anti-Stick Label Holder brings new order, offers variable labelling of all shelf types and helps to create an efficient logistics process.

Anti-Stick – roll

For traverses and shelves

- | Excellent for shelf traverses
- | Remove paper labels **without leaving residues**
- | Adheres to all smooth surfaces
- | Simple and lasting application
- | With standard warning text imprint

Material: polyester foil
Thickness: 0.15 mm
Surface: glossy (siliconised)
Adhesive: acrylate
Application area: indoor

Anti-Stick Label Holder – roll material

Width x length	Item no. / blank	Item no. / individual
35 mm x 10 m	2228.08.035-10	2228.99.035-10
100 mm x 10 m	2228.08.100-10	2228.99.100-10

Anti-Stick – labels

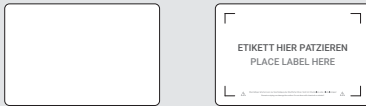

For boxes and containers

- Suitable as a base for reusable packaging, plastic crates, metal crates on supports on shelves, etc.
- Remove paper labels **without adhesive residue**

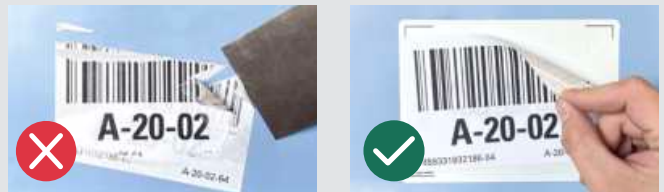

Material: polyester
Thickness: 0.15 mm
Surface: glossy (siliconised)
Adhesive: acrylate

Height x width	Item no. / blank	Item no. / individual
105 mm x 160 mm	LB08.FC1f9.105-160	LB99.FC1f9.105-160
125 mm x 200 mm	LB08.FC1f9.125-200	LB99.FC1f9.125-200

No annoying scraping off of old labels!

Anti-Stick – magnetic labels

For traverses and shelves – magnetic

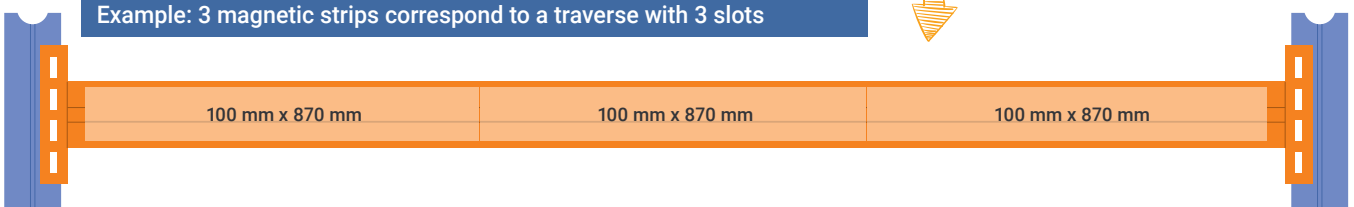

- Excellent for shelf traverses
- Remove paper labels **without leaving residues**
- Adheres to all ferrous surfaces
- Simple and lasting application

Material: magnetic foil
Thickness: 0.9 mm
Surface: glossy (siliconised)
Application area: indoor

Height x width	Item no. / blank	Item no. / individual
100 mm x 145 mm	LB08.MR1f0.100-145	LB99.MR1f0.100-145
100 mm x 290 mm	LB08.MR1f0.100-290	LB99.MR1f0.100-290
100 mm x 870 mm	LB08.MR1f0.100-870	LB99.MR1f0.100-870

Example: 3 magnetic strips correspond to a traverse with 3 slots

Spray stencils

For spray-on, roll-on or brush-on markings

Spray stencils charging station 1

Accessories and Installation

Useful aids for cleaning and installation

Cleaner

- For cleaning surfaces
- Degreases and dissolves soiling

Content: Isopropanol 70%
250 ml

Isopropanol	Artikelnummer
250 ml	9104.SW.1745

Primer no. 5

- Primer No.5 increases the adhesive strength of a tape on critical surfaces
- ALWAYS necessary outdoors!

Primer no. 5	Item number
250 ml	3051.25.250
1000 ml	3051.25.1000

Adhesive remover

- Removes adhesive residues quickly and thoroughly

Adhesive remover	Item number
500 ml (hand sprayer)	5004.54.006

Edge sealing

- For sealing of edges
- Prevents penetration of moisture

Content: 140 ml for approx. 10-15 m

Edge sealing	Item number
140 ml	6090.20.140-1A

Wiper

- For easily adhering of materials such as foil
- Degreases and dissolves dirt

Colour: white
Material: plastic
Dimensions: appx. 70 x 100 mm

Wiper	Item number
Plastic wiper	8000.01.022/1

Pressure roller

- For bubble-free laying markings and signs
- For pressing on profiled substrates

Short version (1): rubber roller
Roller width: 55 mm
Long version (2): rubber roller
Roller width: 75 mm

Pressure roller	Item number
Short version (1)	8002.11.032
Long version (2)	8002.00.921

Acrylic foam

- Double-sided adhesive tape for gluing signs
- For transparent and permanent bonding
- Suitable on glass, acrylic glass, stainless steel, etc.

Width x Length	Item number
12 mm x 11 m	4403.11.012
19 mm x 11 m	4403.11.019
25 mm x 11 m	4403.11.025

PE foam

- Double-sided adhesive tape for fastening and mounting
- For lightweight signs, mirrors, rails or screens
- Suitable on metal, plastic or glass

Black	
Width x length	Item number
12 mm x 10 m	4533.10.012
19 mm x 10 m	4533.10.019
25 mm x 10 m	4533.10.025

White	
Width x length	Item number
12 mm x 10 m	4514.10.012
19 mm x 10 m	4514.10.019
25 mm x 10 m	4514.10.025

Magnetic tape

- For mounting signs
- Self-adhesive on one side

Material: magnetic tape
Material thickness: 1.5 mm
Adhesive: acrylate
Size: 25 mm x 10 m

Magnetic tape	Item number
1 roll	9201.2.05.025

Hooks for signs

- Hook with C-opening for hanging up signs
- Optional in combination with knotted chain

Material: steel
Wire thickness: Ø 2 mm
Length: 39 mm

Hooks for signs	Item number
4 pcs/PU	8008.00.121

Steel spiral springs

- For hanging up signs on shelf edges
- Can be extended up to approx. 1.5 m

Material: steel
Material thickness: 2 mm
Load capacity: up to approx. 3.5 kg

Steel spiral springs	Item number
4 pcs/PU	8008.00.120

Knotted chain

- For fastening signs
- Optional in combination with sign hooks
- Reusable

Material: steel
Wire thickness: 1 mm
Length: 30 m

Knotted chain	Item number
1 roll	8008.00.122

Mounting adhesive

- Flex 310 M® Classic

Contents: 200 ml
Colour: grey

Mounting adhesive	Item number
200 ml	8133.05.200

Screw set

- For fixing signs to the wall

Scope of delivery: 4x screws 4x35 mm
 4x rosettes
 4x dowels 6 mm

Screw set	Item number
Set, 4 pcs/PU	8008.00.105

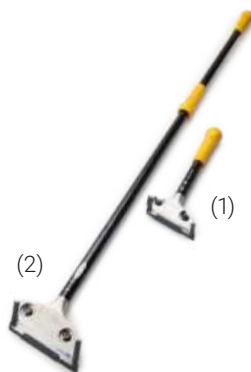

Scraper

- For removing floor markings

Length: (1) 300 mm; (2) 1200mm
Blade width: (1) 100 mm; (2) 125 mm

Design	Item number
Short (1)	8002.SC.RL300
Long (2)	8002.SC.RH1200
Replacement blades (ref. to 1)	8002.LC.B50SN
Replacement blades (ref. to 2)	8002.LC.B65S-10H

Spring Toggle

- For attaching GRP profiles to lattice stairs

Thread: M8

Spring Toggle	Item number
Set, 2 pcs	8008.00.304

A whiteboard with several colorful sticky notes (yellow, pink, light blue, light green) and magnets (red, blue, yellow) pinned to it. A green plant is visible in the bottom right corner. A large blue diagonal shape covers the right side of the image.

Planning & Organisation

- I Magnetic and adhesive pockets

Magnet and whiteboard solutions

Without frame, made-to-measure and individually printed

Magnetic whiteboard foil

From the old to the new whiteboard

- | Individual dimensions, shapes and prints
- | Quick and easy to place
- | Writeable and used flexibly
- | Optimal for damaged whiteboard surfaces
- | Suitable for all magnetic materials

Material: magnetic foil 0.90 mm
Mounting: magnetic backside
Print: high-quality UV print
Surface: whiteboard foil
Dimension and shapes: customisable, max. 1000 mm x 2500 mm

Quick and easy to place on the old board and make dirt invisible.

Magnetic and writable

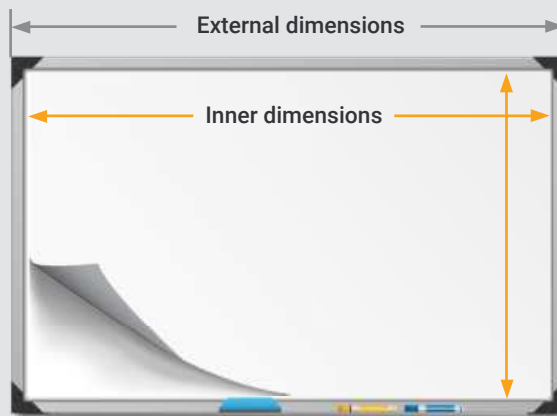

We design your whiteboard to suit the desired application

Dimensions

To choose the right size for your whiteboard film, please measure the inner **dimensions** (HxW) of your whiteboard to determine the actual size for the whiteboard film. Please also state these dimensions when ordering.

Fabric adhesive tapes

For a multitude of universal application possibilities

Adhesive fabric tape || WT-5562

The matt fabric tape for a number of application possibilities

- Ideal for binding, fastening, bundling, repairing or sealing
- Wide variety of colours perfect for industrial labelling
- Available in neon colours
- Matt, wear and tear resistant, can be labelled
- Can be removed from most surfaces without leaving residue

Material: PE-coated fabric

Material thickness: 0.3 mm

Surface: matt

Adhesive: natural rubber

Application area: indoor

Adhesive fabric patches || WT-5561

- Quick and easy to attach
- Universal application possibilities
- Excellent immediate adhesion
- Easy, residue-free removal

Material: PE-coated fabric

Material thickness: 0.3 mm

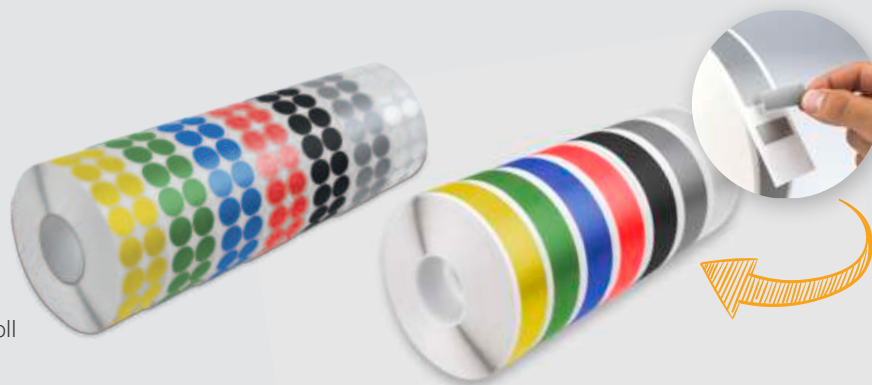

Surface: glossy

Adhesive: natural rubber

Application area: indoor

Quantity: Dots: 4000 patches per roll

Rectangles: 5000 patches per roll

Adhesive fabric tape || WT-5561

The glossy fabric tape for a number of application possibilities

- Ideal for binding, fastening, bundling, repairing or sealing
- Wide variety of colours perfect for industrial labelling
- Quick and noticeable labelling of danger points
- Glossy, wear and tear resistant, can be labelled
- Can be removed from most surfaces without leaving residue

Material: PE-coated fabric

Material thickness: 0.3 mm

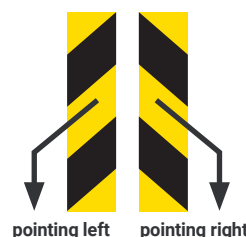

Surface: glossy

Adhesive: natural rubber

Application area: indoor and outdoor

Point out left or right on a barrier or danger zone!

Industrial adhesive tapes

- I Acrylate
- I PE foam
- I Foils
- I Fleece
- I Removable
- I High temperature

Double-sided acrylic adhesive tape

Adhesive tape with acrylic core for a durable and strong bond

- High initial adhesion and extra strong adhesive strength
- High adaptability and high elasticity
- Extremely weather-resistant, resistant to UV, plasticisers and ageing
- Suitable for various surfaces such as glass, acrylic, plastic

Material: Pure acrylate foam

Adhesive: Acrylic adhesive

Temperature resistance: up to +80°C (briefly up to + 150°C)

	Colour	Thickness	Adhesive strength	12 mm x 33 m	19 mm x 33 m	25 mm x 33 m
WT-4402	highly transparent	0.5 mm ±10%	37 N/25 mm	4402.33.012	4402.33.019	4402.33.025
WT-4403	highly transparent	1.0 mm	37 N/25 mm	4403.33.012	4403.33.019	4403.33.025

WT-4451	grey	0.64 mm	47 N/25 mm	4451.33.012	4451.33.019	4451.33.025

Other tapes, widths and material thicknesses on request

Double-sided PE foam tape

Foam adhesive tapes specially developed for different materials

- High instant adhesion and strong final adhesion
- Compensates for material-related expansion and tension differences
- Suitable for gap tolerances, seals, absorbs shocks and noise
- Resistant to weathering, UV, plasticisers and ageing
- Suitable for fixing decorative parts, mouldings, signs, mirrors, frames or panels

Material: PE foam

Adhesive: acrylic adhesive

Temperature resistance: from -30°C to +80°C (briefly up to + 120°C)

	Colour	Thickness	Adhesive strength	12 mm x 25 m	19 mm x 25 m	25 mm x 25 m
WT-4514	white	1.1 mm	22 N/25 mm	4514.25.012	4514.25.019	4514.25.025
WT-4516	white	1.6 mm	32 N/25 mm	4516.25.012	4516.25.019	4516.25.025
WT-4533	black	1.1 mm	22 N/25 mm	4533.25.012	4533.25.019	4533.25.025
WT-4535*	black	1.0 mm	22 N/25 mm	4535.25.012	4535.25.019	4535.25.025

* especially for low-energy surfaces

Other tapes, widths and material thicknesses on request

Double-sided film adhesive tape

Dimensionally stable adhesive tapes with thin film carrier

- Very good adhesion, high initial and permanent adhesive strength
- Tear-resistant and stable
- Good UV and ageing resistance
- For joining and mounting various flat and smooth materials such as metal, plastic, paper or glass

Material: film carrier

Adhesive: acrylic adhesive

	Carrier	Colour	Thickness	Adhesive strength	Temperature resistance	12 mm x 50 m	19 mm x 50 m	25 mm x 50 m
WT-4210	PET	transparent	0.205 mm	18 N/25 mm	up to +60°C	4210.50.012	4210.50.019	4210.50.025

Other widths on request

Double-sided non-woven adhesive tape

Thin, flexible and supple

- Can be torn by hand
- Low overall thickness adapts to surfaces
- For bonding and finishing various materials such as paper, cardboard, film, foam, textiles or plastic

Material: non-woven

Material thickness: 0.1 mm

Colour: translucent

Adhesive: Polyacrylate pressure-sensitive adhesive

Adhesive strength: 20 N/25mm

Temperature resistance: from -30°C to +100°C

	12 mm x 50 m	19 mm x 50 m	25 mm x 50 m
WT-4112	4112.50.012	4112.50.019	4112.50.025

Other widths on request

Removable double-sided adhesive tape

Removable tape on both sides without leaving any residue

- Universal use on almost all surfaces
- Removable, very flexible and tear-resistant
- For quick fixing and bonding
- Suitable for bonding and laminating various materials such as carpets, displays, signs, etc.

	Carrier	Colour	Thickness	Adhesive	Adhesive strength	Temperature resistance	12 mm x 33 m	19 mm x 33 m	25 mm x 33 m

Other widths on request

High temperature tape

For covering and fixing at high temperatures

- High-performance silicone adhesive, can be removed without leaving any residue
- Extremely heat and UV resistant
- Ideal for covering, masking or insulating
